

**Module Goal** - To create a lesson that emphasizes a specific research strategy that could help your students. Focus on areas most appropriate for the age group and content area you teach.

---

**Grade Level & Content Area:** 9th Grade Theology

**Objective:** Students will be able to utilize google search using key words from their unit and narrowing their search by adding the word “kids”.

**Activities and Tools Used**

- [Google Search](#)

- [Diigo](#)

- [Google Docs](#)

-[Haiku Deck](#), [Google Presentations](#), etc.

**Assessment**

- 9th grade students will work collaboratively to find a way to teach their assigned theology chapter to a specific grade level (Kindergarten-3rd grade). They will use google search to research their subject matter and collaborate their research resources on diigo. They will take [screenshots](#) of their best google search phrase that scored them the best results. They will use google docs to put together a lesson plan or presentation. They will present their idea to their class using google presentations or haiku deck. Classmates will make suggestions and ultimately the groups will teach their lesson to their assigned grade.
